

Sample Study Plan MA-Major

This is an example study plan, designed to show you how you could distribute the courses over the four MA semesters. You are free to change and adapt the order in which you take the courses, though you should take the Foundation Lectures in your first semester. Please bear in mind that you have to complete three MA colloquia, the last of which has to be taken in the semester you write your MA thesis. How you compile the extensions (seminars, lectures, workshops etc) is up to you.

Semester	MA Courses	ECTS	Total ECTS
First Semester	Foundation Lecture Specialization (graded)	4	18 ECTS (+ e.g. 12 ECTS in the Minor)
	Foundation Lecture Non-Specialization (graded)	4
